

**ARMUNDIA GROUP**  
WORLDWIDE SOFTWARE SOLUTIONS

## Previp Assistance Case has chosen Armundia Health Carver from Armundia Group to support policy management processes

Rome, October 16, 2017 - **Armundia Group**, a Leading Italian company that designs and provides ICT solutions and software solutions for Banking & Finance and Insurance market, announces that its solution Armundia Health Carver has been selected by Previp Healthcare Fund to support consultancy and policy management processes.

Registered in the Health Fund Registry, since 1989, Previp promotes and implements forms of Health care or supplementary health care of the National Health Service: through Previp, the affiliated companies may guarantee to their employees a wide range of welfare services to protect the person, with all the tax and contribution allowances allowed by the current regulations.

With the implementation of Armundia Health Carver, the innovative management software designed by Armundia Group to meet the needs of the Healthcare Funds, Previp can automate all the low added value and repetitive activities, and significantly reduce the time management of new health plans and guaranteeing its members even higher levels of service.

Natively integrated with a general accounting product, the Armundia Group platform consists of several modules to support the entire Health Care Fund operational cycle: from the stage of agreements with intermediaries and carriers, up to the management of the collection of the annual welfare contributions.

Armundia Health Carver has a number of additional features, such as the Alert & Monitoring system, which allows the user, according to his profile and grant, to receive notifications of the activities to be performed.

Additional feature is the Business Reporting Form, to measure and monitor the management and revenue of contracts entered into on behalf of its members.

The system has been designed with the ease-of-use approach in mind: a simple browser is enough to access the platform.

*"We are proud to be able to include Previp among our customers" says Gianluca Berghella, President & CEO of Armundia Group. "The trust we have been awarded by a healthcare fund so appreciated on the market is another confirmation of our capability to support to the best of all those organizations that aim to increase their operational efficiency and the further improvement of services to their customers (or users) and their consequent satisfaction. All this, through a quick, easy and non-invasive implementation of these solutions, led by a consultative activity, based on the experience and skills acquired in the industry".*

*"We are very pleased to have chosen Armundia Group as an IT partner because their expertise in designing, developing, and delivering software solutions, for the banking and insurance industry, enables us to leverage the capabilities of a management system that is perfectly tailored to our needs simplifying and streamlining processes with low added value" explains Ilenia Dibennardo, Vice President of Previp HealthCare Fund - Automation of some processes allows the reduction of low-level executive activities so that employees are involved in more qualifying activities, increasing their intellectual contribution in the business cycle.*

*Furthermore, the adoption of Armundia Health Carver has allowed us to have easy and timely access to database information, with the result of an improved service levels for the various stakeholders".*
